

# Turku Bioimaging Photo Competition: *The Bioimage of the Year 2009*

**Turku Bioimaging proudly presents a new prize for the best bioimages of the year !**

The picture should be esthetically pleasing, but it should also capture the essence of an interesting scientific story. *The image may be in any field of bioimaging*, i.e. all different forms of light microscopy, EM, AFM, in vivo optical imaging, PET or MRI imaging. Applicable imaging forms are also video sequences from live cell or intravital imaging as well as experimental imaging techniques (e.g. ultrahigh resolution imaging, spectroscopy-based imaging, imaging mass-spectrometry). One to three prizes will be awarded.

Send your image to Turku Bioimaging along with an image title and an abstract presenting the image and the scientific background. The winner(s) share 3000 euro and will be invited to present the image and its background story on the Turku Bioimaging Symposium that will be held during the early fall of 2009.

*The competition is open for all Finnish imaging groups and for members of the Nordforsk-funded Nordic network for Imaging in Medicine and Biology.*

**Deadline for submission: September 15, 2009, at 16.00.**

*For detailed submission instructions, check the "NEWSDESK" at [www.bioimaging.fi](http://www.bioimaging.fi)*
